Early this morning the building began to fill with studing fumes and smoke, coming work in connection from the basement, and at about 4.40 it was discovered that there was a fire under Oscar Krause's drug store. The blaze had started among a lot of acids and other chemicals, and the burning of such stuff gave to the fumes

their particularly dangerous character.

Aroused from sleep into terror, the dwellers in the tenements on the upper floors precipitately left the building, and not until they had reached the street, screaming and only partially dressed, did it occur to some only partially dressed, did it occur to some of the fathers and mothers that they had left

children behind.

Their cries for the abandoned little ones were pitful. The cries were taken up by the crowd which had begun to gather, and reached the ears of Roundsman John Shields, who was among the policeman that Capt. Reilly, of the Thirtieth street station, brought

Build a Hall for the Free Lectures, the People Say.

Rich and Poor Would Be Glad to Contribute Towards It.

It Looks as If the Project Might Be Realized at No Distant Day-New Suggestions Brought Out on the Subject, the More It Is Considered-The Time Ripe for Just Such a Plan-The Institution Would Be of Great Value to the Public.

The suggestion printed in THE EVENING WORLD yesterday of the establishment by the people of a hall of education for the people has met with the warmest kind of reception. Everybody expresses approval of the idea and wonders why New York has been so long

without such an institution. The project proposed is a direct outcome of THE EVENING WORLD Free Lecture bill.

leading role himself. On Tuesday, therefore, the author appeared as the heroic Paul, but everything tended to show that Mr. Mackaye's voice was far too powerful for a Newark theatre. Some people declared that it could be distinctly heard two blocks away. Since then Mr. Mackaye's voice has been very subdued. It is said that H. Clay Miner is now trying to induce Joseph Haworth to play the part for the rest of the season. Col. Thomas Porterbuse Occluttree, by the lyee. People saw the great benefits likely to re-People saw the great benefits likely to result from the lectures, and one friend of the bill went further and asked where the lectures would be held. Thruking over this point he conceived the idea of a hall built by popular subscriptions, and at once wrote to The Evening World about it.

Judging from the interest already aroused it looks as if at no distant day the brilliant project might be realized.

Interviews with men prominent for their interest in public affairs bring out new ideas on the subject. play the part for the rest of the season. Col. Thomas Porterhouse Ochiltree, by the bye, is at present acting as a sort of "Paul Kauvar" advance agent in Washington. He has written from that city to New York saying what good work he has done for the show there. Milton Lackaye will continue as a member of the "Paul Kauvar" company during the rest of the reason, and next season will join "Siberia." Miss Carrie Turner has signed with Mr. Miner to play Diane in "Paul Kauvar" not only this but all of next season, when the piece will probably not be produced until after the Presidential election.

That organization, it is said, agreed to take the "Paul Kauvar" company to Washington free of charge in order that it might give the benefit for the French statue in that city. At the first production of "Natural Gas," at the Fifth Avenue Theatre, Monday night, few people noticed the absence of John D. Gilbert, the prime comedian, rom the east. His place was admirably filled by Stage Director John Craven. It appears that Mr. Gilbert left the company completely in the lurch. The eccentricity which prompted him to do this has, it is said, been the cause of similar trouble four times during the present season. Yesterday Mr. Gilbert was politely requested to tender his resignation and it was understood last night that he had gone to Chicago. Gilbert, Donnelly, Girard and

understood last night that he had gone to Chicago. Gilbert, Donnelly, Girard and Manager John H. Russell had all been partners in the successful "Natural Gas" enterprise. Donnelly, Girard and Russell will now possess it. Business Manager Walter Collier was loud in his admiration of John Craven's performance Monday night, He declared that he appeared for the first time in the part and with only one rehearsal. This is not strictly correct. Mr. Craven had played the part before in San Francisco.

Miss May Gallagher, the original Kate in "Esmeralda," at the Madison Square Thea-tre, will this summer join the Lyceum Thea-tre Company in its Western tour. Miss Gal-lagher will understudy several parts, and will
